Submission for OMB review; 30-day comment request

Assessing an Online Process to Study the Prevalence of Drugged Driving in the U.S.:

Development of the Drugged Driving Reporting System (NIDA)

SUMMARY: Under the provisions of Section 3507(a)(1)(D) of the Paperwork Reduction Act of 1995, the National Institutes of Health (NIH) has submitted to the Office of Management and Budget (OMB) a request for review and approval of the information collection listed below. This proposed information collection was previously published in the Federal Register on November 24, 2014, page 69864 and allowed 60 days for public comment. No public comments were received. The purpose of this notice is to allow an additional 30 days for public comment. The National Institute on Drug Abuse (NIDA), the National Institutes of Health, may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised, or implemented on or after October 1, 1995, unless it displays a currently valid OMB control number.

**DIRECT COMMENTS TO OMB:** Written comments and/or suggestions regarding the item(s) contained in this notice, especially regarding the estimated public burden and associated response time, should be directed to the: Office of Management and Budget, Office of Regulatory Affairs, [OIRA\\_submission@omb.eop.gov](mailto:OIRA_submission@omb.eop.gov) or by fax to 202-395-6974, Attention: NIH Desk Officer.

**COMMENTS DUE DATE:** Comments regarding this information collection are best assured of having their full effect if received within 30-days of the date of this publication.

**FOR FURTHER INFORMATION:** To request more information on the proposed project or to obtain a copy of the data collection plans and instruments, contact the NIDA Contract Officer's Representative (COR) Harold Perl, Ph.D., Chief, Prevention Research Branch, Division of Epidemiology, Services & Prevention Research, NIDA, 6001 Executive Blvd., Rockville, MD 20852 or call this non-toll-free number (301) 443-6504 or email your request, including your address to: [hperl@nida.nih.gov](mailto:hperl@nida.nih.gov). Formal requests for additional plans and instruments must be requested in writing.

**PROPOSED COLLECTION:** Assessing an Online Process to Study the Prevalence of Drugged Driving in the U.S: Development of the Drugged Driving Reporting System, 0925-New, National Institute on Drug Abuse (NIDA), National Institutes of Health (NIH).

Need and Use of Information Collection: The study seeks to provide an improved understanding of the prevalence of drugged driving among adult drivers in the U.S and will assess the effectiveness of the online survey implementation process. The primary objectives of the study are to: (a) to provide comprehensive data on drugged driving; (b) determine if the Drugged Driving Survey Instrument (DDS) is an effective and accurate measure of drugged driving among licensed U.S. Drivers aged 18 and older. and, (c) to assess the effectiveness of the survey implementation process, including various levels of incentives for participation to determine the appropriate/optimal incentive amount needed to obtain the desired number of total survey respondents within the timeframe within which survey data will be collected. The findings will provide valuable information concerning various aspects of substance use and driving behavior, including: (1) demographic information about drivers who do and do not drive while impaired by medication and/or drugs (e.g. age, zip code, type of driver's license); (2) which drugs/medications are most likely to be used while driving; (3) drivers' beliefs and attitudes toward drugged driving.

OMB approval is requested for 2 years. There are no costs to respondents other than their time. The total annualized estimated burden hours are 750.

Estimated Annualized Burden Hours

Form Name	Type of Respondent	Number of Respondents	Number of Responses per Respondent	Average Burden Per Response (in hours)	Total Annual Burden Hours
Drugged Driving Survey	Adults	3,750	1	12/60	750

Dated: April 14, 2015.

Genevieve deAlmeida,

Project Clearance Liaison,

National Institute on Drug Abuse.
